Prodigy Construction Corporation, Inc.
ATTN: Tony Coke
11106 Decimal Drive
Louisville, Kentucky 40299

Dear Tony,

My experience with Prodigy could not have gone smoother. From design and layout, we worked with the team to get the absolute most out of our space. Like any project we had changes and setbacks to work through, but they were always handled professionally and efficiently. The office build has exceeded our expectations and we have had rave reviews from our patients and referring doctors about how inviting and comfortable the space is. These folks are great to work with and are true pros at making the vision of our office become the reality

Thanks,

Dan
