April 29, 2019

Steve Bosco, President  
Prodigy Construction

Steve:

We wanted to let you know that we are extremely satisfied with our new facility located at 1425 West Broadway. Your team did an excellent job preparing for actual construction during an unusually long City Permitting process. When that hurdle was cleared, they hit the ground running and built an 11,000 square foot Medical Facility during the winter season in just shy of 7 months elapsed time. We opened for business on April 29<sup>th</sup> 2019.

The element that impressed us most was the weekly project management lead by Derwin Allen. He was always looking ahead and coordinating the day-to-day construction. The “fit and finish” of the facility is fantastic and no details got overlooked. His ability to navigate through to the finish line was extraordinary.

All members of the Prodigy Team enjoy what they do and that team spirit shows in the final product. They made the Construction Process fun! All questions got answered, our on-the-fly changes were handled with ease and we are so happy that we had the chance to work together.

Given the chance to do this again: Would we hire Prodigy? ABSOLUTELY!

Sincerely,

Dave Gerwig, CFO
